Itinerary Planner (WW I/WW II/D-Day)

Day 1	Nathan will meet you at London Heathrow arrivals in the terminal once your flight has landed and you have your baggage, or a hotel of your choice.	Nathan will serve celebratory refreshments in our luxury vehicle prior to heading to Well Cottage where Laura will be ready to serve you your first lunch or afternoon canapes. A relaxing afternoon to unpack and settle in.
Day 2	The day can involve starting at the world-famous Durdle Door and viewing this incredible natural archway from above- and observing where all the boats and ships left from for D-Day. If you wish you can then walk 1 mile along the popular <i>South West coastal path</i> to the neighbouring village of West Lulworth. After lunch we can visit Portland Castle and the Castletown D-Day Museum.	
Day 3	A trip to the naval city of Portsmouth - a 1hr 45min journey through countryside, national parks and then onto major highways will have us starting the day at the D-Day Story museum on the sea front, before moving over to the splendid Historic Dockyard where we can enjoy Laura's picnic lunch and you can explore HMS Victory & The Mary Rose plus much more.	
Day 4	A relaxing day to enjoy the cottage, the garden and our local area. You can take advantage of your complimentary in-house spa treatment if you wish. A freshly made lunch overlooking the garden listening to the birds sing before heading off to our local town of Shaftesbury or heading out for a countryside walk over the local fields on the public footpath network.	
Day 5	A day in Bath - After the 1 hour journey you can enjoy the wonderful Roman city of Bath. A guided walking tour by a professional with a World War II twist is a nice way to appreciate the city and its architecture, both pre and post The Blitz. You will see the Royal Crescent, The Circle, Assembly Rooms, Pulteney Bridge, Sally Lunn's and the Abbey, ending up at the Roman Baths Museum.	
Day 6	A bit of a free day, the Yeovilton Air Museum is very interesting with lots of planes on display, both old and new. We can also visit one other excursion of your choice from our set itinerary, for example Stonehenge driving past the Fovant Badges on the way, or other castles and/or gardens.	
Day 7	Isle of Purbeck- Begin the day at the Tank Museum, which is home to the largest collection of tanks in the world. We will then head to the Isle of Purbeck for lunch and enjoy the local area which will include Tyneham Village- an abandoned ghost town evacuated to enable training for D-Day. Also, Studland & Fort Henry and/or possibly a visit to Corfe Castle- a 1000-year-old ruined royal castle.	
Day 8	Unfortunately, your stay with us at Well Cottage is coming to an end and it is your last breakfast with us- but don't worry Laura will ensure you are leaving well fed. Nathan will ensure he delivers you to your final destination in good time. We will wish you a safe onward trip and hope to see you again in the future.
